- Introduction to a special set of skills which are world-wide accepted.
- What are 21st century skills and how will they help in this competitive world.

OUTCOME

- Help you figure out what is important to what you want to be involved in, what you want out of your education.
- Help you sort out concerns about your career and education choices and help you to identify factors that might influence your choices.
- Help you organize your thoughts surrounding your career and educational choices.

What we don't do:

We don't tell you what you should choose among the career stream or career choices. Instead, we can help you understand yourself so that you make the best career choice based on your skills, interests, values, and personality.

We don't tell you what job or internship to take or what graduate degree to go for. We can help you work through your options to make the right choice based on your goals.
